

HINTS FOR HOMEOWNERS

Sprucing Up Your Home For Special Occasions

(NAPS)—Weddings, anniversaries, birthdays, and holidays are special occasions to cherish. And nothing creates lasting memories like opening your home to family and friends to celebrate these joyous moments.

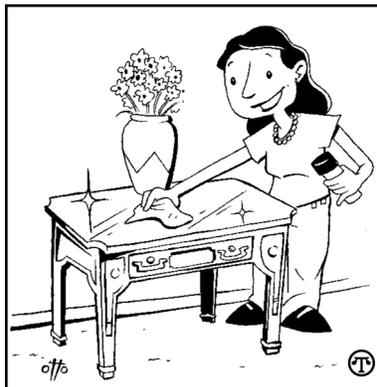

One way to create the perfect backdrop for your celebration is to bring out the natural beauty of your home's wood furnishings. Formby's®, the expert in wood care and refinishing products for generations, provides helpful tips and information on making the most of your wood furniture on the Formby's Furniture Workshop Web site at www.formbys.com.

The first thing that Formby's experts suggest you do is to take a walk through your home and make a checklist of the furnishings that could use some sprucing up. For example, if you're planning a sit-down dinner or buffet you'll want to focus on your dining room furniture. Or, perhaps, your guest room furniture has lost its original luster.

Whatever care your furniture requires, the experts at Formby's offer these tips for lasting wood beauty:

Revive and refresh. Update your wood furniture with an easy-to-use Face Lift™ Kit from Formby's. This unique kit comes with a Cleaning Liquid to remove built-up dirt, a Buffing Cream to smooth away minor scratches, and a Face Lift™ Finish that provides a beautiful, glossy finish. It will have your furniture looking new again in no time.

Cleanse and restore. If layers of built-up wax and grease have your wood furniture looking dark and lifeless, you can restore its natural beauty with a deep cleaning treatment like Formby's Deep Cleansing Build-up Remover. It

One way to get your home ready for special occasions is to bring out the natural beauty of your home's wood furnishings.

quickly dissolves dirt, dust and wax build-up, while leaving behind a fresh scent.

Protect and nourish. After you've given your wood furniture a thorough cleaning, restore the natural oils that time has taken away. Formby's has a Lemon Oil Treatment that nourishes and maintains wood's natural beauty and prevents cracking, peeling, lifting, and discoloration when used with regular maintenance.

Dust and polish. For routine dusting and polishing, try an aerosol maintenance product like Formby's Almond Lustre® or Citrus Lustre®. They enhance the appearance of wood furniture by increasing gloss and hiding minor imperfections while nourishing wood, and removing dust and dirt particles. What's more, they are quick and easy to use.
