

TAKING GOOD CARE OF YOUR CAR AND YOURSELF

PREVENTATIVE MAINTENANCE IS IMPORTANT FOR YOUR CAR. FOR EXAMPLE, IT'S A GOOD IDEA TO CHANGE THE OIL EVERY FIVE THOUSAND TO TEN THOUSAND MILES. ALSO, YOU SHOULD REPLACE THE AIR FILTER AT LEAST ONCE A YEAR. AFTER DOING THESE TASKS, YOU'LL NEED SOMETHING MORE THAN JUST THE TRADITIONAL HAND SOAP TO CLEAN UP. FORTUNATELY, LAVA SOAP USES THE POWER OF PUMICE TO QUICKLY BREAK THROUGH THE TOUGHEST GREASE AND GRIME WHILE LEAVING YOUR HANDS COMFORTABLY MOISTURIZED. FOR MORE FACTS AND TIPS, VISIT LAVA-SOAP--DOT--COM.
